

HANDHELD TECHNOLOGY

Clafin Company partnering with **SUPPLYHAWK**  has developed a process utilizing PDA's to perform on-site inventory and replenishment.

Some of the advantages you will see:

- Increase Revenue
- Cut Costs
- Gain Control

Purchase Order Management

Are you tired of using multiple system sand processes to order different items? We can give you a way to use one easy system to order, track and received products and from multiple vendors.

- Suggested purchase orders based on your par levels, and or ad-hoc ordering demand.
- Multiple vendors and substitute items, each with its own pricing.
- Supports centralized ordering for multiple facilities.

Better information, better care, better service.....
